SUMMARY

Full Stack Developer and final-year B.Tech CSE student with two production systems live at college scale, two internships, and a hackathon first prize. Architected and shipped Skillnox, a secure online assessment platform handling 5,000+ concurrent users at 99.66% load-test success rate. Proficient in React, Node.js, PostgreSQL, Python, and AI/LLM integration. Oracle OCI Generative AI Professional certified, HackerRank 5-Star Python. Seeking full-time SDE, Full Stack, or Backend roles; open to relocate anywhere in India.

EDUCATION

B.Tech in Computer Science — KITS Akshar Institute of Technology 2023 – 2027 | CGPA: 8.3

PROJECT

Skillnox & Skillnox AI (Assessment & AI Interview Platform)

Personal Project • [Demo Link](#) • Sep 2025 - Present

- Architected and deployed a college-scale online assessment platform handling 5,000+ concurrent MCQ users and 1,000+ concurrent coding users with 99.66% success rate under k6 load test
- Built anti-cheat protections including tab-switch detection, DevTools blocking, keyboard interception, and AI-extension blocking while extending the platform with AI-powered mock interviews using local LLMs (Qwen).
- Implemented scalable PostgreSQL schema management using Drizzle ORM, optimized REST API workflows, and automated deployment pipelines through GitHub Actions-based CI/CD.

KITAGhire.in - College Training and Placement Portal

Personal Project • [Demo Link](#) • Sep 2025 - Present

- Digitized and automated 90%+ of Training and Placement workflows at KITS, replacing manual record handling with a centralized live portal used by 3000+ students, administrators, and recruiting companies.
- Built a TPO admin dashboard featuring real-time placement analytics, student performance monitoring, training attendance tracking, and automated Excel/PDF report generation, reducing administrative reporting time by nearly 80%.
- Developed a scalable full-stack architecture using React, Node.js, and PostgreSQL with secure role-based access control, optimized database queries, and multi-user handling to support 300+ concurrent active users during placement drives.

Global Smile - AI Patient Acquisition Platform

Personal Project • [Demo Link](#) • May 2026

- Won first place at Codegnan Elevate X Hackathon; built a complete AI-powered trust and acquisition engine for prosthodontic clinics within 12-hour.
- Delivered AI Smile Visualizer for treatment outcome previews, Dental Tourism Cost Calculator for international and interstate patients, patient transparency dashboard, and smart automated follow-up system.
- Completed full system design, testing architecture, and live demo presentation within the hackathon sprint window.

StudentConnect — Collaborative Student Resource Platform

Personal Project • [Demo Link](#) • February 2026

- Won 3rd place at KITS AKSHAR CSE Department Hackathon; built a fully functional collaborative student resource platform in a 48-hour sprint against multiple competing teams.
- Developed core features including resource sharing, peer collaboration tools, and student progress tracking using Python, Django, and PostgreSQL.
- Delivered complete working product with live deployment within hackathon deadline.

EXPERIENCE

Google Student Ambassador | Google

| Jul 2025 - Dec 2025, Guntur, Andhra Pradesh, India

- Delivered 7+ technical workshops on Google Cloud, Android development, and AI tools, engaging 300+ students across sessions.
- Built a 150+ member developer community from scratch, driving a 50% increase in Google program registrations on campus.

FULL STACK INTERN | COGNIFYZ TECHNOLOGIES

| Jun 2025 - Jul 2025, Remote

- Built and shipped full-stack web applications using React, Node.js, and Express with RESTful API integration, improving workflow efficiency by ~30%.
- Optimized frontend-backend communication, reducing API response time by ~25%.
- Automated repetitive processes, cutting manual effort by ~40% and improving overall system responsiveness.

WEB DEVELOPMENT INTERN | CODEGNAN

| May 2025 - Jun 2025, Vijayawada

- Designed and deployed AdventureAura, a responsive travel website achieving under 2-second load time, improving crossdevice compatibility by ~30%.
- Conducted UI/UX prototyping with Figma and Adobe XD; ensured consistent performance across 10+ device screen sizes.
- Built responsive interfaces using HTML, CSS, JavaScript, and Bootstrap, enhancing user experience across mobile and desktop.

SKILLS

Languages: JavaScript, TypeScript, Python, SQL
Frontend: React.js, Next.js, Tailwind CSS, Three.js
Backend: Node.js, Express.js, Django, REST APIs
Databases: PostgreSQL, MongoDB, MySQL
AI/ML: Gemini API, OCI GenAI, Qwen, PyTorch
Tools: Git, Docker, Linux, Postman, Vercel

CERTIFICATIONS

Oracle OCI 2025 Generative AI Professional and AI Foundations Associate | Oracle • 2025

- Validated expertise in generative AI, large language models, and Oracle Cloud Infrastructure AI services.
- Certified in AI and machine learning foundations on Oracle Cloud Infrastructure.

HackerRank Python - 5 Star Badge and SQL Certified

| HackerRank • 2025

- Achieved 5-star rating and passed the HackerRank Python certification assessment.
- Validated SQL and database query skills through hands-on problem solving.

AI and Data Science Workshops

| IIT Bombay TechFest • 2026

- Participated in advanced workshops on Artificial Intelligence and Data Science conducted during IIT Bombay TechFest, gaining practical exposure to machine learning concepts, data-driven problem solving, and emerging AI technologies.
