SUMMARY

Full Stack Developer and final-year B.Tech CSE student with two production systems live at college scale, two internships, and a hackathon first prize. Architected and shipped Skillnox, a secure online assessment platform handling 5,000+ concurrent users at 99.66% load-test success rate. Proficient in React, Node.js, PostgreSQL, Python, and AI/LLM integration. Oracle OCI Generative AI Professional certified, HackerRank 5-Star Python. Seeking full-time SDE, Full Stack, or Backend roles; open to relocate anywhere in India.

EDUCATION

B.TECH

Minor in COMPUTER SCIENCE • KITS AKSHAR INSTITUTE OF TECHNOLOGY • GUNTUR, ANDHRA PRADESH • 2027 • 8.3 CGPA

- Relevant Coursework: Data Structures, Algorithms, Database Management Systems, Operating Systems, Computer Networks, System Design, Deep Learning .

PROJECT

Skillnox & Skillnox AI (Assessment & AI Interview Platform)

SELF BUILD • skillnox.kitaghire.in • September 2025 - Present

- Sole architect and developer of a college-wide exam platform stress-tested at 5,000+ concurrent MCQ users and 1,000+ concurrent coding users, achieving 99.66% success rate under peak load using k6 load testing.
- Engineered a multi-layer anti-cheat engine including tab-switch detection, DevTools blocking, keyboard shortcut interception, and AI-extension blocking with real-time auto-grading and instant score reporting.
- Extended the platform into Skillnox AI, an AI-powered mock interview system processing 50+ concurrent interviews with resume scoring and automated technical feedback using local LLMs (Qwen).
- Authored complete system architecture documentation, API reference, database schema, scaling blueprint, and test suite publicly available on GitHub.

Global Smile - AI Patient Acquisition Platform

Self Build • global-smile-lc5h.onrender.com/ • May 2026 - May 2026

- Won first place at Codegnan Elevate X Hackathon; built a complete AI-powered trust and acquisition engine for prosthodontic clinics within a 12-hour sprint.
- Delivered AI Smile Visualizer for treatment outcome previews, Dental Tourism Cost Calculator for international and interstate patients, patient transparency dashboard, and smart automated follow-up system.
- Completed full system design, testing architecture, and live demo presentation within the hackathon sprint window.

KITAGhire.in - College Training and Placement Portal

Self Build • kitaghire.in • September 2025 - Present

- Digitized and automated 90%+ of Training and Placement workflows at KITS, replacing manual record handling with a centralized live portal used by 3000+ students, administrators, and recruiting companies.
- Built a TPO admin dashboard featuring real-time placement analytics, student performance monitoring, training attendance tracking, and automated Excel/PDF report generation, reducing administrative reporting time by nearly 80%.
- Developed a scalable full-stack architecture using React, Node.js, and PostgreSQL with secure role-based access control, optimized database queries, and multi-user handling to support 300+ concurrent active users during placement drives.

EXPERIENCE

Hackathon First Prize Winner

Codegnan Elevate X Hackathon

May 2026 - May 2026

- Built an AI-powered patient acquisition and trust engine for prosthodontic clinics end-to-end in a 12-hour sprint across three live evaluation phases with judge feedback.
- Delivered AI Smile Visualizer for treatment outcome previews, Dental Tourism Cost Calculator for international patients, realtime transparency dashboard, and smart automated follow-up engine.
- Awarded first prize among all competing teams; judges offered internship opportunities based on solution quality and execution speed.

Google Student Ambassador

Google

July 2025 - December 2025, Gurgaon, India

- Delivered 7+ technical workshops on Google Cloud, Android development, and AI tools, engaging 300+ students across sessions.
- Built and managed a 150+ member student developer community from scratch, driving a 50% increase in Google program registrations on campus.
- Mentored students on learning paths, certifications, and technical skill development.

FULL STACK INTERN

COGNIFYZ TECHNOLOGIES

June 2025 - July 2025, REMOTE

- Built and shipped full-stack web applications using React, Node.js, and Express with RESTful API integration, improving workflow efficiency by approximately 30%.
- Optimized frontend-backend communication, reducing API response time by approximately 25%.
- Automated repetitive processes, cutting manual effort by approximately 40% and improving overall system responsiveness.

WEB DEVELOPMENT INTERN

CODEGNAN

May 2025 - June 2025, VIJAYAWADA

- Designed and deployed AdventureAura, a responsive travel website achieving under 2-second load time, improving crossdevice compatibility by approximately 30%.
- Conducted UI/UX prototyping with Figma and Adobe XD; ensured consistent performance across 10+ device screen sizes.
- Built responsive interfaces using HTML, CSS, JavaScript, and Bootstrap, enhancing user experience across mobile and desktop.

SKILLS

Languages: JavaScript, TypeScript, Python, SQL

Frontend: React.js, Next.js, Tailwind CSS, Framer Motion, Three.js, HTML, CSS, Bootstrap

Backend: Node.js, Express.js, Django, REST APIs, Prisma ORM, Drizzle ORM

Database: PostgreSQL, MongoDB, MySQL, Firebase

AI / ML: Gemini API, Oracle OCI GenAI, Local LLMs (Qwen), Scikit-learn, PyTorch

Tools: Git, Docker, Vercel, Postman, Figma, Adobe XD, VS Code, Linux, CI/CD

Concepts: System Design, Load Testing, REST API Design, SDLC, OOP, Authentication, Security

CERTIFICATIONS

Oracle OCI 2025 Generative AI Professional

Oracle • 2025

- Validated expertise in generative AI, large language models, and Oracle Cloud Infrastructure AI services.

Oracle OCI 2025 AI Foundations Associate

Oracle • 2025

- Certified in AI and machine learning foundations on Oracle Cloud Infrastructure.

HackerRank Python - 5 Star Badge and Certified

HackerRank • 2025

- Achieved 5-star rating and passed the HackerRank Python certification assessment.

HackerRank SQL Certification

HackerRank • 2025

- Validated SQL and database query skills through hands-on problem solving.

Google Student Ambassador

Google Gemini • 2025

- Selected as campus ambassador to conduct technical workshops and promote Google technologies, impacting 300+ students.

AI and Data Science Workshops

IIT Bombay TechFest • 2026

- Participated in advanced workshops on Artificial Intelligence and Data Science conducted during IIT Bombay TechFest, gaining practical exposure to machine learning concepts, data-driven problem solving, and emerging AI technologies.
